

# Fever Detection Screening Control System

Putting comfort back into the community

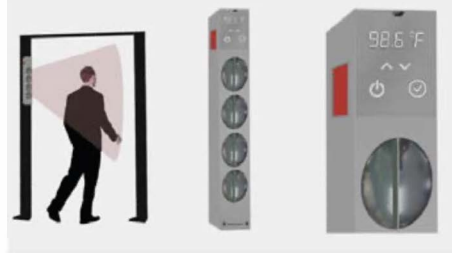

Our StripSensor is affordable, easy to use, and provides an extra layer of safety and trust in the spaces where people live, work, shop and play.

## We scan high traffic areas to identify and track feverish people.

- / Non-contact rapid mass screening
- / Detection - 300 people per minute
- / Multi-point temperature measuring
- / Multiple camera synchronization
- / Automatic alarm based on user parameters
- / Temp measurement < +/-0.3C accuracy
- / Low cost solution
- / Wide angle unnoticeable camera
- / Attached to metal detector or door jamb
- / Plug & Play
- / Wifi enabled
- / 3 hours autonomous battery (optional)

### Easy Wall Mount System

### PRODUCT SPECIFICATIONS

- / Accuracy: ±0.3°C / 32.54°F
- / Object Temperature Range:
  - 30°C ... 50°C / 86°F ... 122°F
- / Operating Temperature:
  - 10°C ... 38°C / 50°F ... 100.4°F
- / Array of IR Sensors
- / Optimal measuring distance: 50 cm
- / Field of Measuring: 80 cm (top to bottom) / 46°
- / Counting of people coming in and out
- / Optional: Digital Camera (Resolution: 640 x 480)

### CONNECTIONS & COMMUNICATIONS

- / 5-inch Graphic TFT display
- / Wi-Fi Standard: 802.11 b/g/n
- / USB 2.0 for data transfer to and from PC
- / RS-232
- / RS-485

### COMPLIANCE & CERTIFICATION

- / Warranty: 1 year
- / Compliance: CE
- / Certificate of Calibration

### SPECIAL CHARACTERISTICS

- / Auto-Calibration to compensate environmental conditions
- / Adjustable visual & audio alarm
- / Adjustable Sensitivity
- / Adjustable Temperature Level Alarm
- / Measuring Characteristics
- / Frame rate: 50 fps
- / Scanning time: 0.5 sec

### SOFTWARE TOOLS

- / Desktop & Android Application for real-time measuring data and alarm viewing
  - Statistics
  - Historical data
  - Profile settings

### PACKAGING:

- / Size: 76cm(H) x 15cm(W) x 10cm(D)
- / Weight: <4kg

## APPLICATIONS

Airports  
 Schools  
 Nurseries  
 Hospitals  
 Government Facilities  
 Public Events  
 Public Transportation
